

The logo for Trois Plus Industries features the word "TROIS" in a large, bold, dark grey sans-serif font. The dot of the lowercase "i" is replaced by a red gear icon with a black center. The background of the entire page is decorated with abstract geometric shapes: red triangles and polygons in the top-left and bottom-right corners, and two overlapping circles (one red, one grey) in the top-right and bottom-left corners.

About Us

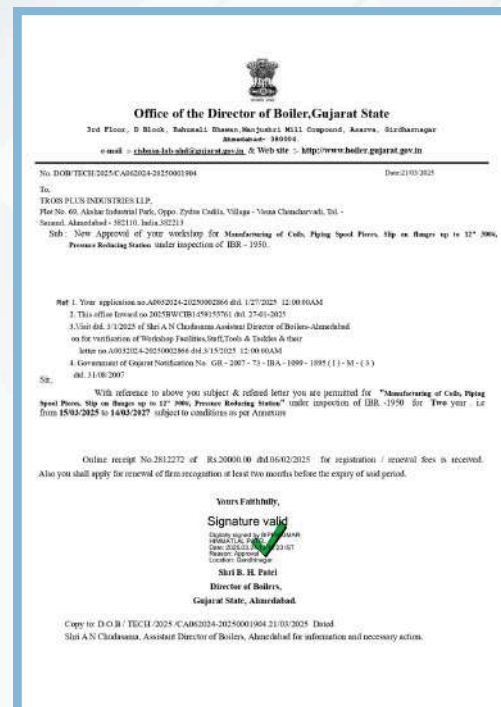

Trois Plus Industries -

Our state-of-the-art 10,000 sq. ft. manufacturing facility specializes in producing high-quality pressure and non-pressure parts, ensuring precision and durability. As an ISO and IBR-certified manufacturer, we adhere to the highest industry standards, delivering reliable solutions for boilers and power plants. With a commitment to excellence, we focus on efficiency & superior craftsmanship to meet the evolving needs of the energy sector.

Partner with us for certified, high-performance components designed for long-term service.

Certifications

Vision, Mission & Values

Company Vision

We prioritize our customers, delivering high-quality products and exceptional customer service, ensuring their needs are met with precision, reliability, and a commitment to excellence.

Company Mission

We continually enhance our products and services to surpass customer expectations. Our dedicated team of professionals works tirelessly to deliver the best possible solutions and support, ensuring each client's needs are met with precision and care.

We are committed to excellence, making customer satisfaction our top priority.

Company Values

We are dedicated to delivering exceptional quality, fostering customer satisfaction, driving creativity, upholding integrity, and championing sustainability in every aspect of our work, ensuring that our values are reflected in all our endeavors.

Process Planning

Product Selection

We believe in a client-focused approach to product selection. Our clients select the product based on their requirements, and from there, we begin our further process.

Product Design

We take a thorough and detailed approach to product design to meet client requirements and exceed expectations in terms of quality.

Optimisation

We are committed to providing our clients with the most efficient and cost-effective solutions to support their success.

Manufacturing

We work tirelessly to create the best product quality, delivering engineering solutions that are specifically suited to each industry we serve.

Installation and Commissioning

We offer assistance to our clients for these important steps, tailoring our support to the specific requirements of each individual project.

After Sales Service

We believe in providing exceptional after sales service, ensuring that our clients receive the support they need even after the sale has been made.

Major Machineries

- CNC Lathe Machine (each with different specifications)
- VMC Machines
- Heavy Duty Lathe Machine (each with different specifications)
- Light Duty Lathe Machine (each with different specifications)
- Surface Grinders
- Shaping Machines
- Milling Machines
- Drilling Machines
- Fully Automatic Hacksaw Cutting Machine
- Air Compressors
- Over Head Crane
- Measuring Instruments As Per Our Company Standards
- Tube Bending Machines
- Automatic / Regular Welding Machines

Infrastructure

- 10,000+ Sq Feet Facility
- 24 x 7 x 350 Days Working Facilities
- 24 Hrs Power Backup
- 10,000 Sq. Feet Covered Shed
- Power Capacity – 30 KW

Pressure Parts

Non-Pressure Parts

AIR NOZZLES

- Precision Parts
- Mechanical Jobs
- Fabrication Experts

Enhance your combustion performance with our high-efficiency **Air Nozzles**

Precision-engineered air nozzles ensure optimal airflow, efficient combustion, stable flames and long-lasting performance in demanding boiler environments.

Waterwall Panels

We understand the urgency of the Waterwall Panels and are taking all necessary steps to expedite the fabrication process.

WHY TROIS?

- ✓ Expert Fabrication
- ✓ Quality & Compliance
- ✓ Timely Delivery

Super Heater Coil

- ✓ **Crafted from high-temperature alloys** to endure extreme heat and pressure.
- ✓ **Designed for exceptional steam quality** and maximum efficiency.
- ✓ **Engineered to meet the demands of high-performance applications** in power plants & industrial systems.

BEND TUBES

Optimize flow with our precision-engineered **Bend Tubes**! Designed for seamless fluid transitions, minimal pressure loss and durability, perfect for power plants, chemical processing and HVAC systems.

BED COIL

Boost boiler efficiency with our durable bed coils, ensuring superior heat transfer, energy savings, low maintenance and long service life.

REDUCER

Precision-engineered boiler reducers ensuring smooth flow, pressure stability, reduced losses, and reliable performance for long-lasting, efficient boiler systems.

EVAPORATOR COIL ASSEMBLY

High-performance evaporator coil assembly engineered for efficient heat transfer, durability, and reliable operation, enhancing overall boiler efficiency and system performance.

MONOHYDRATE FBD DRYING SECTION COIL

OUT-OF- ROUNDNESS (OOR)

We perform strict ovality checks to maintain dimensional accuracy, ensuring reliable performance and long-term service life.

ESP Spares

1. Scalloped Plates for SH Coils
2. Shield for Bed, Superheater and Economizer Coils
3. Grate bars for TG, DG, and PG
4. Air heater tubes & tube sheets
5. Air Nozzles for AFBC Boilers
6. Air Heaters Assembly
7. Airbox Assembly and Distributer Plates
8. Mixing Nozzle
9. Fuel Nozzle
10. Fuel Nozzle Cap
11. Air Nozzles for CFBC Boilers
12. Cross
13. Pocket Feeder
14. Rotor for Pocket Feeder
15. Drag Chain and Feeder
16. Emitting Electrodes
17. Ash Feeder
18. Impeller with Shaft assembly for PA, SA, ID, & FD Fan Collecting Electrodes
19. Cooling Fans
20. Seal Air Fans

21. Bushing Insulator
22. MDC Cone
23. MDC Inlet Guide Vane (IGV)
24. MDC Outlet Guide Vane (OGV)
25. SS Ferrules
26. Silencers
27. Thermowells
28. Man Hole Door
29. Clinker Cleaning Door
30. Expansion Bellows
31. Dampers
32. Top / Bottom Suspension Frame
33. GD Screen
34. Support Insulator
35. Shaft Insulator
36. Water Treatment Spares & Consumables
37. Water Treatment Plant and Boiler Chemicals
38. Base frames for Fans and Pumps
